

Hands-on Exercise No. 4
DigiSkills 3.0 Batch-03
Data Analytics and Business Intelligence

Total Marks: 10
Due Date: 18/06/2026

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word to prepare exercise solution.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
 - It is submitted after due date.
 - It is not in the required format (.doc or .docx)
 - It does not open, or file is corrupt.
 - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

After completing this exercise, you shall be able to:

- Analyze sales performance by identifying key metrics like top products, regional performance, profit margins, to support business decision-making
- Implement interactivity features such as slicers, cross-filtering to enable dynamic data exploration
- Design and build interactive dashboards in Power BI using multiple visualization

Problem Statement

Note: The hands-on exercises are linked to each other, to complete this exercise, use the completed data file of your Hands-on Exercise 1,2 &3. Therefore, to complete Hands-on Exercises 4, it is necessary to complete the previous hands-on exercises first.

Scenario: You are a Business Intelligence Analyst at a retail company. The CEO wants a high-level dashboard to monitor overall sales performance. He needs to see total sales, profit, orders and quantity sold, along with trends over time and performance by region and product category. The dashboard should allow him to filter by segment and region.

Question 1: Create a **Cards** section showing: (2-Marks)

- Total Orders
- Total Quantity Sold
- Total Profit
- Total Sales

Question 2: Create a **Line Chart** showing Monthly Sales Trends. Use the Order Date columns to create a proper date hierarchy. Display Sales on the Y-axis and Order Date on the X-axis. (2-Marks)

Question 3: Create a **Clustered Bar Chart** showing Total Sales by Category (e.g., Technology, Furniture, Office Supplies). Sort the chart from highest sales to lowest. (1-Marks)

Question 4: Create a **Map Visualization** showing Total Sales by State. Larger bubbles should represent higher sales. (1-Marks)

Question 5: Add **Slicers** for the following fields to make the dashboard interactive: (2-Marks)

- Segment (e.g., Consumer, Corporate, Home Office)
- Region

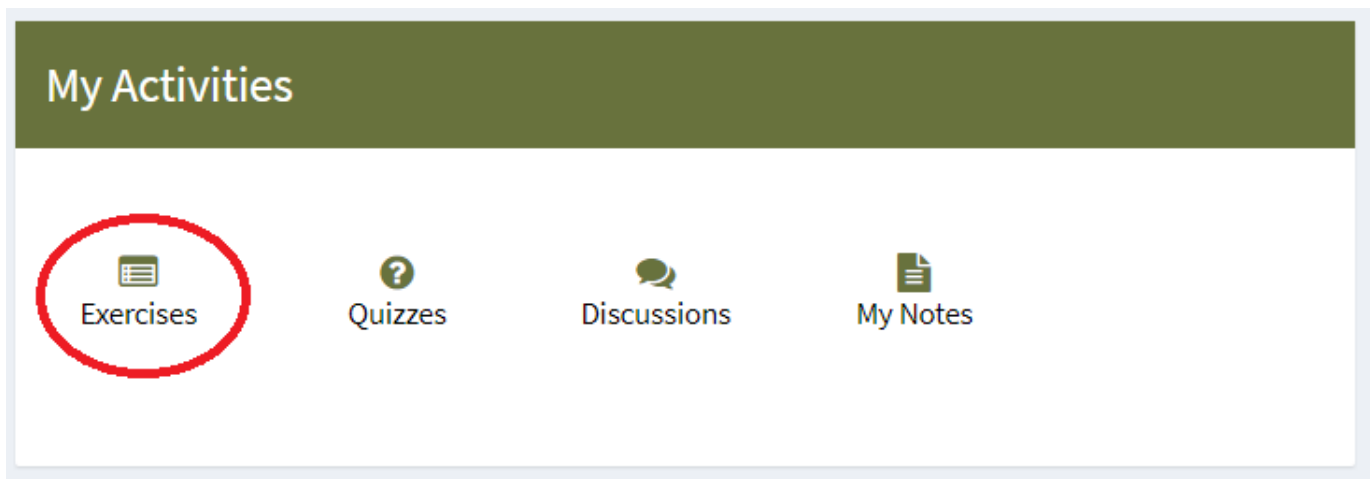

Question 6: Create a Complete Executive Dashboard – Arrange all the above visuals (Q1 to Q 5) on a single Power BI page named "Executive Dashboard" with any attractive theme. (2-Marks)

BEST OF LUCK ☺

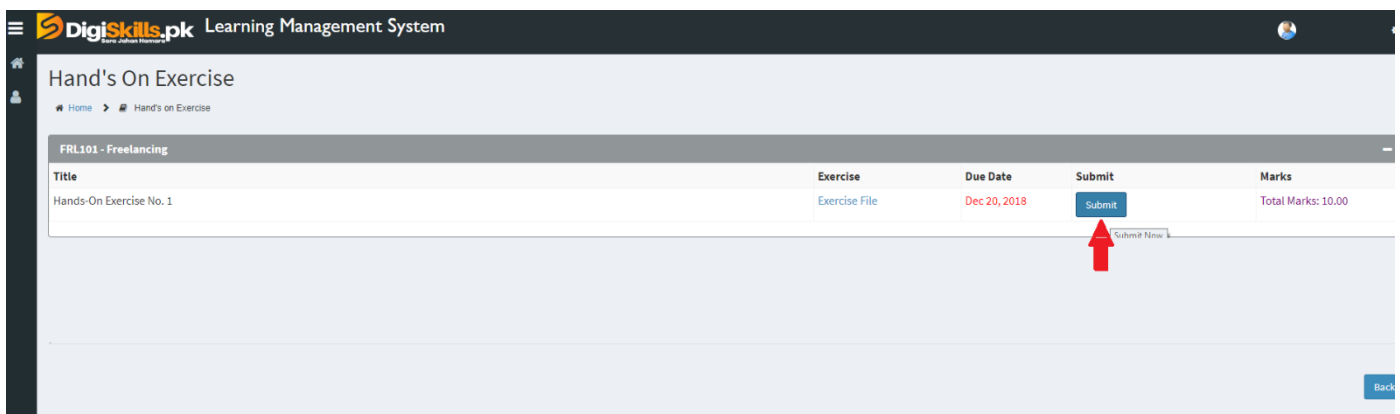

How to submit solution file on LMS?

Please perform the following steps for submitting your solution using LMS:

- 1) Login to the LMS
- 2) Click on the **Exercises** button within the **My Activities** section

- 3) Click on the submit button to upload your Solution.

- 4) Keep in mind to upload your Solution in .doc or .docx format
